

Mime et moi

Join the mime family

We are a young Start-up from Munich producing and selling high heels that can be adjusted in height around the world. The secret behind the unique height adjustment lies in the mouldability of the patented inner sole. Thus, heels can be changed in regard to height, shape and colour.

More about Mime et moi at www.mimemoi.com

We have been in the market since 2016 and have already received enthusiasm and demand. We are looking for active support to help us expand further.
